

Statement of Contribution:

Bella: Created visual report for Winter Photo Event, Met with OberlinKids Board to determine Phase 2 of research following surveying at Winter Photo Event, Developed Intercept Survey, Surveyed at Walking in a Winter Oberlin, Organized Qualitative Findings from all survey research, Filmed Findings Section

Anthony: Collected surveys at Winter Photo Event and Walking in a Winter Oberlin event, distributed intercept surveys to six high traffic locations around town, created graphs and frequency tables in the appendices section of final report, recorded the conclusion and recommendations section of the final video report.

Katherine: Created visual poster for intercept survey, surveyed at Walking in a Winter Oberlin event, filmed methodology section, developed the initial script for a focus group that we didn't end up pursuing, surveyed at Oberlin Public Library Storytime, spread intercept survey posters throughout Downtown Oberlin, wrote methodology and conclusions for final report

Isabelle: Collected data/surveyed at multiple events including OberlinKids photo event, Kids in Motion, and distributed survey via flyer throughout town. Was in contact with Oberlin Community Services in attempt to reach more families, contributed to the development of our weekly outreach emails to our client, and contributed to PechaKucha presentations. Turned their previous year's long survey into a survey on qualtrics. Contributed to the development of our other survey questions. Synthesized/analyzed quantitative data from all survey data collected for the final report with Bella.

Jessie: Wrote and sent out several of our emails to Jenn, went in to talk to Jenn at the OberlinKids office when we were having trouble reaching her over email and phone, attended the Family Photos & Winter Fun Day event in October where I entertained the kids while parents took surveys and toured the resource tables, helped craft the intercept survey, attended the OPL public story time to conduct intercept surveys

with parents, surveyed parents at the Kendal Early Learning Center, attended Walking in a Winter Oberlin to conduct intercept surveys, cleaned data from qualtrics intercept survey. For the final reports: Wrote the purpose and methodology sections of the cover page, the summary of the RFP and projected goals, filmed a clip for the final video, and put together the final portfolio on Wix.

Maya: Collected surveys at Oberlin Kids photo event and Kids in Motion event at the Cat in the Cream. Printed and put up QR code posters around town. Put data from surveys into google sheets. Facilitated meetings and organized execution of tasks. Storyboarded and edited final video report deliverable. Contributed to Pecha Kucha presentations and survey question design. Submitted progress reports on Blackboard.
